DATE...18...4.23   EXP. No...... 5

4. Students Marksheet using variables and message Box.

1. Click on the process button and create a process. After creating a process a new page will open.

2. Go to new and create a sequence and name it.

3. Go to activity panel drag comments, Assign and message box accordingly in the sequence.

fig 1.

4. Assign five variables for Roll No., Name and Marks in three subjects.
Assign the values to the variables accordingly.

5. Print all the information of the student in a single message Box.

6. To write the information in the form of a Marksheet use 'vb Cr Lf' to change the line or add information in a new line in the same message box.
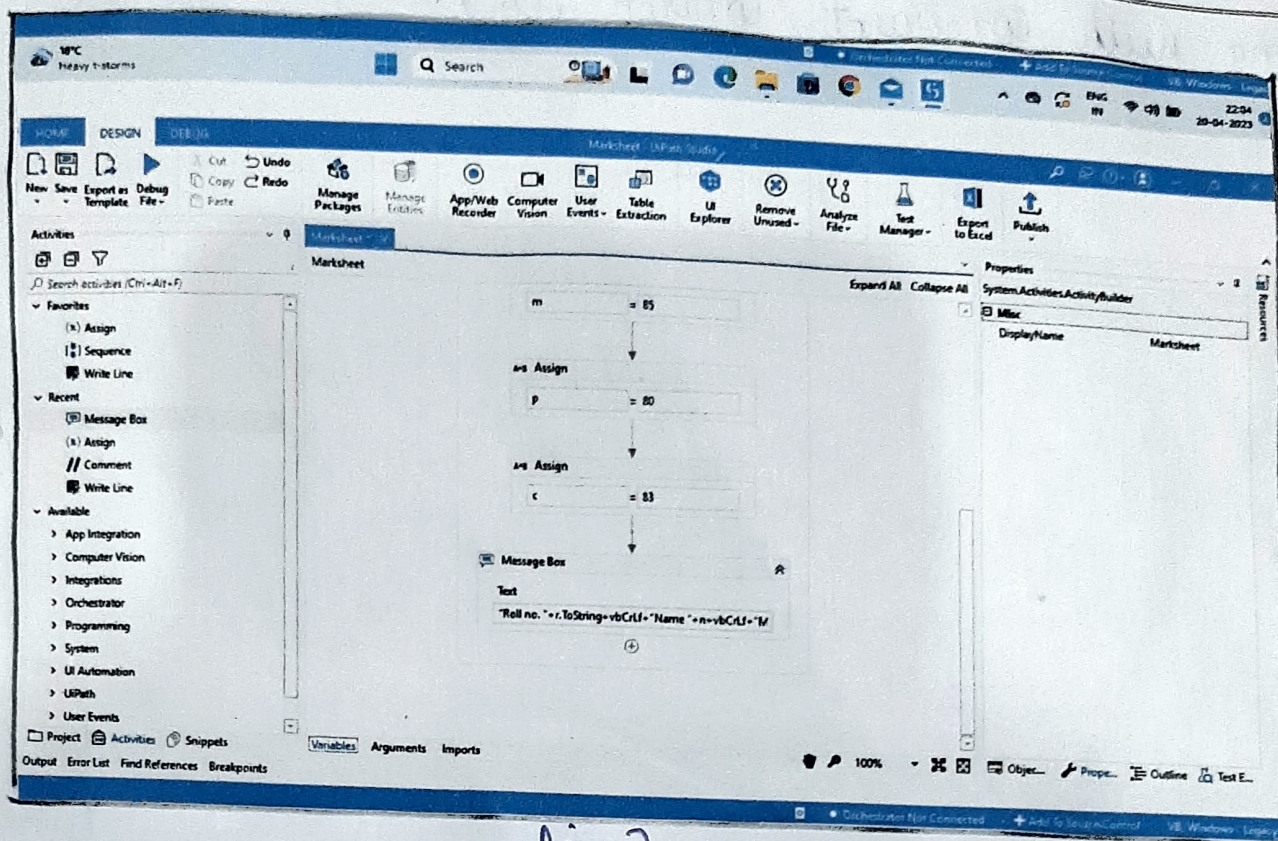

fig 2

7 Run and the output will appear on the screen.

Message Box ✕

Roll no. 2022130
Name Rishika Dogra
